Simon Air Quality

126 Tweed Crescent, Russell, ON, K4R 1A4

Canada

Phone: (613) 866-2092

We measure and improve indoor air quality through scientific/technical means. We can test for mold, asbestos, radon, emissions, VOCs, smoke, and more. We even clean furnaces and replace old insulation with new insulation. No indoor air quality issue too big or too small. At Simon Air Quality, we do everything in our power to clear the air and get you feeling great. Clean, crisp air will revitalize you, relieve your allergies, and keep you comfortable all year around. Simon Air Quality provides any size air purifier, air exchanger, or sub-slab depressurization system for any situation. We even provide mold removal and asbestos removal services, fully certified.Website:
